FOR INDUSTRY: HOW TO ENGAGE WITH EURO BIOIMAGING

ACCESS SERVICES

Euro-BioImaging gives you access to **120+** cutting-edge biological and biomedical **imaging technologies** across all scales.

We also offer **Image Data Analysis as a Service** to help you make the most of your image data.

➢ **Fully confidential consultation** by our technology experts

➢ Attractive **fee-for-service model** with services tailored to your research needs

➢ Service agreement with **full IP**

MORE INFO

COLLABORATE

Are you looking for **competent partners** for your imaging project

➢ Technology development

➢ Methods development

➢ National or European funding programmes?

We can help you identify the right experts and **set up a collaboration**!

CONSULT WITH EXPERTS

Share your expertise, best practices & ideas and in return learn from some of the best in their field.

➢ More than 10 **expert groups** on image data, remote access and training, imaging technologies and more

➢ Online **workshops**

➢ **Stakeholder** consultations

Contact us to learn more about current opportunities!

JOIN THE COMMUNITY

Participate in one of our many **free and open events** organized for imaging enthusiasts

➢ Virtual Pub (scientific highlights in imaging)

➢ Tech Exchange (commercial imaging solutions)

➢ Online workshops

➢ User Forum

Subscribe to our newsletter to stay informed about what's going on!

SIGN UP

INDUSTRY BOARD

Become a member for a small annual fee and benefit from

➢ Regular meetings with other **companies in the imaging sector**

➢ Annual meeting with experts from **190+ pan-European imaging facilities**

➢ **Access to information** on trends and latest developments in imaging

➢ **Visibility** for your technology or career opportunities

➢ Tailored **opportunities** for companies

MORE INFO

SUPPORT

We work with different initiatives and programmes globally on **training, career development and capacity building** for imaging scientist and core facilities.

If you want to **support** emerging imaging communities or offer opportunities to early career imaging specialists, get in touch with us!
