Letter of Intent
Future User of Euro-BioImaging Node

Dear Sir/Madam,

If *[Name of University/Institute]* is ratified as Euro-BioImaging Node or Node site and can provide open access to Euro-BioImaging users, I, *[Name of user and affiliation]*, express my interest to apply to access this facility for a research project on ...

[max 300 words: Please briefly explain the specific research context that you work on and aspects of the research where you will need support from the facility and expected results, include also which technologies and associated services you would request access to]

Access to the facility is important for my research because

[max. 150 words: Please explain briefly, why you need access to the planned services provided by this future Euro-BioImaging Node, why this access would be beneficial for your research, and how the access would allow your team to pursue research that is currently either not possible or limited.]

Yours sincerely,

[Date, Signature of User]
